Meclube Srl
Managing Director

Bondeno di Gonzaga 10/07/2017

ADR 1.1.3.1. c) The dispositions of the ADR are not applicable:

to transports made by companies as an addition to their main activities, for example provision of construction sites, or for the itinerary to come back from these sites, or for works of control, reparation or maintenance, in quantities not superior to 450 liters for packing and according to the limits of the maximum total quantities specified at 1.1.3.6. Suitable measures to prevent losses of the material in normal transport conditions must be adopted. Transports made by companies for their provision or for external or internal distribution are not subject to this exemption.
